Skills

Programming Languages:

- Java, C#, SQL, Python (data analysis fundamentals) JavaScript (basic)

Frameworks & Technologies:

ASP.NET Core, Java Swing, WPF, REST APIs, Entity Framework

Databases:

SQL Server, SQLite, Relational Database Design

Core Concepts:

Object-Oriented Programming (OOP), MVC, CRUD Operations, Client-Server Architecture

Testing:

Unit Testing (JUnit / XUnit / MSTest), Integration Testing, Test Case Design

Tools:

Git, GitHub, Azure DevOps, Visual Studio, IntelliJ IDEA, VS Code

Education

Diploma in Information Technology

Rosebank College

2022 – Present (Completed, graduation pending)

Key Coursework & Focus Areas:

- Object-Oriented Programming and Software Design
- Database Systems and SQL-Based Data Analysis
- Systems Analysis and Application Design
- Data Fundamentals and Structured Data Handling

Adrian Wiltshire

SOFTWARE DEVELOPER INTERN

PROFESSIONAL SUMMARY

- Aspiring Software Developer intern with a strong foundation in object-oriented programming and full-stack application development.
- Experienced in building web and desktop applications using C#, Java, and SQL, with hands-on project experience implementing CRUD functionality, authentication, and structured data handling.
- Eager to contribute to a development team while strengthening real-world software engineering skills.

Projects

Disaster Relief App

Software Developer | C#, ASP.NET Core, SQL – GitHub: [DisasterReliefApp](#)

- Developed a full-stack web application with user authentication and role-based functionality
- Implemented database-driven CRUD operations using Entity Framework
- Designed structured data models to support scalability and maintainability

EasyKanban Task Management Web App

Java, Swing – GitHub: [EasyKanban](#)

- Built a task management application using object-oriented design principles
- Implemented task creation, editing, and status updates
- Applied separation of concerns for cleaner code structure

Donation Analytics Dashboard Project

C#, WPF, SQL, Data Visualization – GitHub: [DonationAnalyticsDashboard](#)

- Designed an analytics dashboard to visualize datasets and identify trends
- Structured and queried data for reporting and insight generation

Retail Sales Analytics Project

SQL, Python (basic) – GitHub: [RetailSalesAnalytics](#)

- Performed data analysis on retail datasets using SQL and Python data analysis fundamentals
